

NO FURTHER ACTION & MONITORED NATURAL ATTENUATION (NFA & MNA) RULE

Tuesday, March 18, 2008

9:00 to 11:00 am

**Arizona Department of Environmental Quality, Room 250
1110 W. Washington Street, Phoenix, Arizona**

The Tank Programs Division (TPD) will give a presentation on the No Further Action & Monitored Natural Attenuation (NFA & MNA) rule which became effective on February 2, 2008. The new rule implements the MNA Program which is available for certain LUST sites that are eligible for the State Assurance Fund (SAF). Under this program (which starts on July 1, 2011), ADEQ will provide the responsible party with a no further action letter and perform the necessary groundwater monitoring until the LUST site is eligible for LUST case closure. The new rule also creates a new process for ADEQ to close certain LUST cases that have exceedences of the aquifer water quality standards (AWQS).

AGENDA:

- 1. Introduction**
- 2. Monitored Natural Attenuation (MNA) Program**
- 3. New groundwater LUST case closure process**
- 4. Other miscellaneous issues:**
 - **Remedial system performance measures**
 - **Submission of professional documents**
- 5. Adjournment**

The meeting is open to the public and anyone may attend without prior notice.

For additional information about this meeting, contact Mary Maas at (602) 771-4253 or at maas.mary@azdeq.gov. You can learn more about ADEQ programs and public meetings by visiting our Web site at: www.azdeq.gov. Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Mary Maas at (602) 771-4253. Requests should be made as early as possible to allow time to arrange the accommodation.
